

That's The Way

[honeycombs](#)

She lied to certain people
That she loved all this time
She gave a million reasons for the wisdom
Of Her contradiction That's the way She drew the line
That's the way She used Her time
And how She would survive She blew a piece of the sense
Of Her heart away, to face another day
And He crawled
He's been longing for Her love to carry on, to carry on That's the way She drew the line
That's the way She used Her time
And how She would survive He's been longing for Your love to carry on
He's been longing for Your love to carry on
I've been longing for Your love to carry on
