

# Tell Me

**Danity Kane**

Tell me, tell me tell me, tell me tell me I don't pay attention to my rear view  
Heard all the rumors that will have you  
Steady thinking that they really know you (tell me)  
But they don't, they don't (tell me tell me)  
And if I flip the camera on you  
Had to see you from a different angle  
You probably wouldn't recognize you (tell me)  
You won't, you won't (tell me tell me) 'Cause when I'm giving you all my heart, my soul  
You tell me it's not enough  
When I'm looking for something soft and sweet (tell me)  
You're giving it to me rough (tell me tell me)  
One minute, you build me up (me up)  
Next minute, you let me fall (me fall)  
So baby don't lead me on (tell me)  
Baby just turn me on (tell me tell me) Tell me, tell me how you want me  
Tell me, tell me  
Tell me how you want me tonight (tell me tell me)  
Tell me how you want me  
Tell me, tell me, tell me, tell me  
Tell me how you want me tonight (tell me tell me) You want me half naked in stilettos  
Hanging from the shower rod in the bathroom  
I shouldn't have do that just to have you (tell me)  
So I won't, I won't (tell me tell me)  
I just wanna really know what gets you  
Often wonder why you gotta go so hard  
When I'm not the one you're into (tell me)  
But you know you are (tell me tell me) 'Cause when I'm giving you all my heart, my soul  
You tell me it's not enough (tell me it's not enough)  
When I'm looking for something soft and sweet (tell me)  
You're giving it to me rough (tell me tell me)  
One minute, you build me up (me up)  
Next minute, you let me fall  
So baby don't lead me on (don't lead me)  
Baby just turn me on (tell me tell me) Tell me how you want me (turn me on)  
Tell me, tell me  
Tell me how you want me tonight (tonight)  
Tell me how you want me  
Tell me, tell me, tell me, tell me  
Tell me how you want me tonight (tell me tell me) 'Cause you don't know

Don't even know the half  
Just take your time  
Get to know who I am  
'Cause you can have it your way  
But I need to know you deserve it  
When I look in your face  
Just tell me which way you want it Tell me how you want me  
Tell me, tell me  
Tell me how you want me tonight (I need you to tell me)  
Tell me how you want me (I need you to tell me how you want it)  
Tell me, tell me, tell me, tell me  
Tell me how you want me tonight Tell me, tell me  
Tell me  
Tell me, tell me  
Tell me  
Tell me, tell me Ooh, tell me, tell me, tell me  
Ooh, tell me  
Ooh, tell me, tell me, tell me  
Ooh, tell me (Tell me tell me tell me tell me tell)  
Ooh, tell me, tell me, tell me (To me)  
Ooh, tell me  
Ooh, tell me, tell me, tell me  
Ooh, tell me (Tell me tell me tell me tell me tell)  
Ooh, tell me, tell me, tell me (Oh)  
Ooh, tell me  
Ooh, tell me, tell me, tell me (No)  
Ooh, tell me (Tell me tell me tell me tell me tell)  
Ooh, tell me, tell me, tell me  
Ooh, tell me Tell me
