

# Let It All Come Down (Edit)

## Simple Minds

So let it all come, let it all come down  
Let it all come, let it all come down  
Sweet tears roll like a river from your eyes  
Get close, let's sleep tonight When you wake there's a new day dawning  
When you wake there's a cold wind blowing  
When day breaks there's a light shines through I'm still here with you when the morning comes  
I need you with me when the day begins Oh let it all come, let it all come down  
Why don't you let it all come, let it all come down All is in control, love is on the open road  
Make me want to live, you make me want to die When you wake there's a new day dawning  
When you wake there's a cold wind blowing  
When day breaks there's a light shining through Oh let it all come, let it all come down
