

World Looking In

Morcheeba

Angels
Smiling on my happiness
Danger
'Cause the scene is still a mess
We can all be blast
Don't stop just yet
We've got the world looking in our window
Don't stop just yet
We've got the world looking in our window
Spacecraft
Spinning slowly out of sight
Peace man
Keep on chasing the wrong guy
We'll see eye to eye
Don't stop just yet
We've got the world looking in our window
Don't stop just yet
We've got the world looking in our window
We've got the world looking in our window
We've got the world looking in our window
Don't stop just yet
We've got the world looking in our window
Don't stop just yet
We've got the world looking in our window
