Condition // Comatose

blessthefall

Angels keep coming after me
Chalk outlines they captivate
Comatose concrete
Stole my hopes and dreams
It's getting hard to sink
When you're six feet deepAm I dying?
Floating above my body
Armageddon running through my veins
I never wanted it to end this way
Dying
Floating above my body
I wish that I could numb this pain
We live and then we medicateHold me so close
Don't let me drift away (Don't let me drift away)
My whole world slips
Right out from under me
Comatose concrete
Stole my hopes and dreams
It's getting hard to sink
When you're six feet deepAm I dying?
Floating above my body
Armageddon running through my veins
I never wanted it to end this way
Dying
Floating above my body
I wish that I could numb this pain
We live and then we medicateClarity
Is missing from everything
The fear that's inside me
Pulling like tidal waves
x2Angles keep coming after me
Chalk outline they CaptivateAm I dying?
Floating above my body
Armageddon running through my veins
I never wanted it to end this way
Dying
Floating above my body
I wish that I could numb this pain
We live and then we medicate
