

I Know You Know

Big Time Rush

Maybe this could be the line
That starts the whole story
Maybe you could be the one
The one who's meant for me
I know that I should wait
But what if you're my soulmate?
Slow down
Then you say
Slow down
'Cause we can We can
Party like the weekend
You got me thinking
We could be a thing yeah
I know you know I got
Your heart thumping
I know you know we know
We got something
We could
Be on to something so good
Tell me that you're mine
I know you know
You got my heart thumping
I know you know we know
We got something You know this ain't me at all
I'm usually lost for words
You know I can't help but fall
I've never felt so sure
You got me in a hurry
But don't you gotta worry
'Cause I'll slow down
When you say slow down
But we can We can
Party like the weekend
You got me thinking
We could be a thing yeah
I know you know I got
Your heart thumping
I know you know we know
We got something

We could
Be on to something so good
Tell me that you're mine
I know you know
You got my heart thumping
I know you know we know
We got somethingRight (yeah)
We're two of a kind
So let's party like it's '99
Yeah
I know you know I got
Your heart thumping
I know you know we know
We got somethingHey baby you drive me crazy
It ain't about what you done for me lately

I know you know we could be something

We got somethingWe can
Party like the weekend
You got me thinking
We could be a thing yeah
I know you know I got
Your heart thumping
I know you know we know
We got something
We could
Be on to something so good
Tell me that you're mine
I know you know
You got my heart thumping
I know you know we know
We got somethingRight
We're two of a kind
So let's party like it's '99
