

# Alison Hell

## Annihilator

Alice isn't it frightening?  
Alice aren't you scared?  
Alice isn't it wonderful  
Living life afraid? Don't look around the corner  
I might be lurking there  
Under the bed at night  
You're up till dawn again Alison Hell, your mind begins to fold  
Alison Hell, aren't you growing cold?  
Alison Hell, you are looking blue  
Alison Hell, what else can you do? I begin my rule  
Life hideous in your mind  
Crying out you've lost your doll  
It isn't worth a dime Alison Hell, your mind begins to fold  
Alison Hell, aren't you growing cold?  
Alison Hell, what are you looking for?  
Alison Hell, soon I close the door Sitting in the corner  
You are naked and alone  
No one listens to your fears  
You've created me Alice isn't it frightening?  
Alice aren't you scared?  
I was killed at birth, I shoot this final scene  
You're in the basement, you're trapped insanity Alison Hell, what were you looking for?  
Alison Hell, as I close the door  
Alison Hell, here you shall dwell  
Alison Hell, Alice dwells in hell Alice, Alison  
Alice in hell  
Goodbye
