

# Heart of Darkness

## Sinner

[Mat Sinner / Magnus Karlsson]I know she's trouble  
She means heartbreak  
A demon works inside my soul  
Do you hear the white wolf howls  
His songs from the hillsI still feel the green fields talking  
Still see your smile in my dreams  
How we're strutting down through grafton  
When you were with meI disappeared without a trace  
No time, no last embrace  
I spread my wings  
A king lost his crownI just see your face  
When will I meet you again  
When the sun goes down  
Where all the warning's unheard  
My heart of darknessI've lost my way in deepest sadness  
Sometimes Heaven, my soul's in Hell  
No rescue for a bleeding heart  
Well, I'm walking through flamesI've disappeared without a trace  
No time, no last embrace  
I spread my wings  
A king lost his crownI just see your face  
When will I meet you again  
When the sun goes down  
Where all the warning's unheard  
In my heart of darknessI've disappeared without a trace  
No time, no last embrace  
I spread my wings  
A king lost his crownI just see your face  
When will I meet you again  
When the sun goes down  
Where all the warning's unheard  
In my heart of darkness
