

Mr. Prescription

Dr Dre

[Sly]Take a little bit of Henessey, and mix it with some syrup
Put ya hands up if you crazy enough to get f-cked up in church
[Nikki Grier]Doctor you got my prescription and it's keepin me alive
Doctor you got my prescription and it's keepin me alive
[Dr. Dre]Thank you for bein patient, I got ya application

I know you been waitin to see the-

Doctor!

Here it is, here I am

Here it is, here I am

Yes, yo ? is right back up in the scene,

Yes, my dope is so methamphetamine

Yes, it's coke I've laced inside every beat

sh-t, I'm tryna get ya high

You been sittin in the waitin room far too long

Too late for- ay, ay, you're far too gone

I know you can't take these awful songs

Like a punk full of bullsh-t

n-gga hell nah

They want some real sh-t

They want the real

Relax, I got you

Good thing I had a couple hundred tums layin around

n-gga dispenseries, servin by the pound

Back in business, bigger than we ever was

It's aftermath n-gga, you know you heard of us

We're leavin narcotics on every note

We just struttin the streets, like when the levis broke (?)

I got the antidote

I got ya hands goin up and down

You done f-cked up now

But it's hard to go back to that bullsh-t

And whatever's on the bar, Dr is gonna push it

[Hook - Sly]You can be my patient

I'm operatin all night

You can be my patient

Man I'm tryna f-ck

All night

You can be my patient

I'm operatin all night
You can be my patient
Man I'm tryna f-ck
All night
[Sly]I beat that boom boom
Down like your knees are
Legs spread out, like I'm mixin a ?
s-x contest?
There ain't no competitor
Looks like it's too late to get ya girl
Now, cause now what?
Now she's my girl
Now you ain't gotta go round no more
Fo sho!
The doctor's operatin on the flo
[Nikki Grier]Doctor you got my prescription and it's keepin me alive
Doctor you got my prescription and it's keepin me alive
