

Life Time Lover

J Boog

well,i met this girl from the country
she wants to know everything thats about me
are you single
what is your age
its kinda hesitant cause everybody plays the game
but meeting you was so surprising
i was a stranger every time you walked by me
now can we just talk
just take a walk
one minute and you will see

oooh... well i done did it right there
i can tell by your eyes you wanna swing my way
you will love dat for real real miss lady
come unwind wit me my baby

well she knows i got da remedy
the real thing
not only physically
i need a life time lover
not a night time lover

well,its getting kinda serious
dont be scared
dont be delirious
i need a life time lover
not a night time lover

she got got me hooked like nicotine
cant eat nor walk or talk or look or sing
or do anything, yes
it was a one night thing
well i know you know what i mean
the way she cried after we made love
knowing that it was strong
and she just cant shake it off
it was a one night thing
well i know you know what i mean
but then im wonderin why this girls gotta be his way
i guess its that chance you take

wonderin if
wonderin if you are the one

well,she knows i got the remedy
everything not only physically
i need a life time lover
not a night time lover

well its getting kinda serious
dont be scared
dont be delirious
i need a life time lover
not a night time lover

well, she knows i got the remedy
the real thing
not only physically
i need a life time lover
not a life time lover

well its getting kinda serious
dont be scared
dont be delirious
i need a life time lover
not a life time lover
