Tear One

Steve Holy

I started missing you
And I?m still not done
But you never saw me cry
?Cause you were gone before tear one
Midnight?s come and gone
And up comes the sun
I should have quit this long ago
Starting with tear one
One more long lonely night
Me and this radio
Song after song reminds me
Where I went wrong
Wrong, wrong, wrong, wrong
I started loving you

And I?m still not done
But you?ll never know how much
?Cause you were gone before tear one
One more long lonely night
Me and this radio
Song after song reminds me
Where I went wrong
Wrong, wrong, wrong, wrong
I started missing you
And I?m still not done
But you?ll never know how much
?Cause you were gone before tear one
You were gone before tear one
