Bucketheadland

Forget the letter, just sleep sound tonight
Pull back the covers without a fight
But as we dance by emergency light
 I fail to swallow my tongue
 And I'm still here bleeding
So pull this switch and see my body twitch
 Oh, as we dance on this memory
 A light left blinking on it's own
 And my blood is flowing
 Down through this machine
 In hope and desire
 In hope I expire
 Turn off this machine
'Cuz this is the only thing that's keeping me alive
 Turn off this machine
'Cuz this is the only thing that's keeping me alive
So pull this switch and see my body twitch
 Oh, as we dance on this memory
 Despair has devoured me whole
 A seed won't grow from this soul
 This pull won't cure my disease
 Can't you kill this bleeding heart?
 Turn off this machine
'Cuz this is the only thing that's keeping me alive
 Turn off this machine
'Cuz this is the only thing that's keeping me alive

Please nurse, my batteries are running low
Please nurse, oh, oh, I think I'm running low
 Left here swallowed by this fear
 That you will always keep me here
To close your eyes and pray for this to go away
 'Cuz I'm not angry, tired or sore
 More of a man than I was before
 Is this the 'cause I'm looking for?
 I plead, forgive me
 'Cuz I'm no martyr
Is this the 'cause I'm looking for?
 I plead, forgive me

'Cuz I'm no martyr
Is this the 'cause I'm looking for?
'Cuz I'm not angry, tired or sore
More of a man than I was before
Is this the 'cause I'm looking for?
I plead, forgive me
'Cuz I'm no martyr
You're not the 'cause I'm looking for
I plead, forgive me
'Cuz I'm no martyr
And you're not the 'cause I'm looking for
