

Liberty

Blindside

Liberty
Society
Sew gather crowd
Everything is allowed
It tickles
You just want to play
But soon it plays with you
You want to leave but you stay
It tickles You don't want to try
I see you
And I'm not good at goodbyes
I love you
You say you're not bad
You say you're not bad
But I can only take what's mine
Why should I end up down there
Say you care
Is he your father now
