

Courage (Come Out to Play)

[Justin Hines](#)

Gonna face the dark tonight, gonna touch the starlight when I?m gone
And if I know the feeling?s right, then I?ve found my place to go
Gonna face the dark tonight, gonna tell them I am on the rise
Love no longer out of sight, Silver linings in my eyes
I said courage.. won?t you come out to play, won?t you come out to play
I?m a livin? it down again, and I?m a bringin? it back someday
I said Courage, won?t you come out to play, won?t you come out to play
I?ve been livin? it down again, I?m gonna need to call your friends
So here?s a hopin? I find you along the way

Gonna ride alone tonight, gonna slay the demons in my way
Cause now I know the feelin?s right, the cause of freedom?s here to stay
Gonna ride alone tonight, they will know the battles all been won
Faith no longer out of sight, my heart pointed to the sun
Yeah I said Courage, won?t you come out to play, won?t you come out to play
I?m a livin? it down again, I?ma bringin? it back some day
I said Courage? won?t you come out to play, won?t you come out to play
I?m a livin? it down again, I?m gonna need to call your friends.
So here?sa hopin? I find you along the way

And if I take it all for granted, I can throw it all away
So I want to leave the world better when I?m gone
And I know the morning after, will bring another day
So This is my revival song? it?s my revival song
Yeah
Ohhh, I said courage, won?t you come out to play, won?t you come out to play
I?m a livin? it down again, but I?m a bringin? it back some day
I said Courage, won?t you come out to play, won?t you come out to play
I?m a livin? it down again, well I?m a bringin? it back some day
I said Courage, won?t you come out to play, won?t you come out to play
I?ve been livin? it down again, I?m gonna need to call your friends
So here?s a hopin? I?ll find you along the way, yeeeeaaaahhhhhaaa
Ohh oh, Alright now?
Wooowoo oh no, oh no?.
Oh it?s alright now?Oh it?s alright now
