

# Party Trap

## Tacocat

When I saw you walkin' by, I followed you, had nothin' else to do  
Now I know the reason why, don't want none of your fun, drop everything and run  
Yeah you got me once again, I got hit, when I was least expecting it  
Fell into your party trap, ba ba ba ba, party trap  
Fell into your party trap, trap  
Yeah you got me once again, I got hit when I was least expecting it  
I'm not sure we're even friends, but I guess it sounds alright, stayin' up with you all  
night  
People I don't wanna see, twist and shout, until they're blacking out, because I  
Fell into your party trap, ba ba ba ba, party trap  
Fell into your party trap, trap  
When I saw you walkin' by, I followed you, had nothin' else to do  
Now I know the reason why, don't want none of your fun, drop everything and run  
Fell into your party trap, ba ba ba ba, party trap  
Fell into your party trap, trap Fell into your party trap, ba ba ba ba ba, party trap  
Fell into your party trap, trap
