And yall movement looks like its important to me
Your girlfriend opens up her part to me
And if she gimme brain, she smart to me

And we stay strapped like Jordans beat
And we in tha center like Brad Daugherty

Yessir, T street, bang bang back in tha building
They call me streets, so call me streets
If u call on reach, im on the streets
And im hungry like a dog on unleash
But im a tiger, and a dog is a feast
And I see through the fog in the trees
Because the nigga makes a logs and leaves

I walk through the jungle with a lion on my sleeve

I need a money donor, cuz im dying to resist
I know mama gat her eyes on her seed
Therefore, I never stop, I just proceed
Their eyes make the peace hard to read
But it says, why im not leave(SIZZLA)

And they actin oh body

See the giving where

The only reason why them bogus living
Aint no way down, please stay down

Let them stay down, put them in a woodbox be laid down..(LIL WAYNE)

We killin em softly,
We killin em softly

And man em hustle like a dog, and have keep police them off me
Pistol in da trunk, and the baby in da car seat
Drive fast lane, with them eyeball glassy
And about the hour, him a heading to the money
Take your coughin baby, give the baby back to mommy
Peer gunshot, shoot him below to him tommy
Bat the man down, boy, im shit around party
Party up, party up, they put the panty up
Sure gat the AK up, him a shoot the building up
We kill them softly, we kill them softly
He make bad girl them for want me, want me in tha storm ay
My girl she need me, my girl she want me
Because me reppin youngmoney, me youngmoney..
