

Always the Same

Squad Five-O

people change, places change, things change, there not the same
and through it all i come to terms with one thing that is true
hypocrisy, theology, hostility, reality
i come to terms with who i am and i find reality in You
we'll fight, they'll see
this world's, philosophy
our God, won't change
He's always right beside us, and
He's always the same
