

# Can't Let Go

Sammie

Man That girl just got you wrapped around her finger man  
You bout sweatin' her, can't let go  
(I ain't trippin' man, she just pretty man)  
You must be crazy, yeah Naw that's not what you was talking bout  
(You know what I mean, she tight and all  
(You know what I'm saying but check this out  
(You know I kinda dig her see She gave me her phone number  
Said, "Call me after the bus stop"  
I knew that I would love her even then Well she got your head wide open  
You don't go hang out with friends  
I never thought a girl would take you a-and Can't believe she had that effect on me  
So easy to be down her 'cause she is just so  
Pretty special never thought that I would go  
But whenever she's with me I'm so happy because Even if I did wanna stop  
Nothing in the world could ever top  
The way I feel, don't you know  
I can't let go, I won't let go Even if I did wanna stop  
Nothing in the world could ever top  
The way I feel, don't you know  
I can't let go, I can't let go You can't let go, you can't let go  
You can't let go, you must be crazy When I'm with her I see roses  
I love her nobody knows this  
She brings the sunshine to a cloudy day Oh yeah, I think you must be crazy  
A girl could never phase me  
She got you wrapped around her finger and  
I can't believe she had that effect on you So, easy to be down with her 'cause she is just so  
Pretty special, never thought that you would go  
Whenever she's with you, you don't know what to do so Even if you did wanna stop  
Nothing in the world could ever top  
The way you feel don't you know  
You can't let go, you won't let go Even if you did wanna stop  
Nothing in the world could ever top  
The way you feel don't you know  
You can't let go, you won't let go Even if I did wanna stop  
Nothing in the world could ever top  
The way I feel, don't you know  
I can't let go, I won't let go Even if I did wanna stop  
Nothing in the world could ever top  
The way I feel, don't you know

I can't let go, I won't let go You can't let go, you can't let go  
You can't let go, you must be crazy  
You can't let go, you can't let go  
You can't let go, you must be crazy Even if I did wanna stop  
Oh yeah, can't let go  
Even if I did wanna stop  
No baby, no baby, no baby, no, no babe no Even if I did wanna stop  
Nothing in the world could ever top  
The way I feel, don't you know  
I can't let go, I won't let go
