

Time To Discover

Robert Bradley's Blackwater Surprise

Take time to discover
That I'm runnin', runnin' out of space
Talk to the others
That I'm livin' time in a chase
And I feel
The wind is gonna blow
Madness all around me
And I feel it's time to go
Tryin' to make it right
Wake up from the night Take time sure to wonder
That there's life in another place
Do you believe in the magic all around us
In this life you got to face
I wanna tell y'all
Seen a man on the move
There's so much out there
But I know he's comin' soon
And I feel good, good
And I feel good right now Tryin' to make it right
Wake up from the night
