GREEN SLEEVES

Words by ID

There was a time  
When hearts were young, (and) so was I  
Adore the past before it all came down  
When odds were always on the rise  
When we wouldn't have it any other way, but

We could always run  
We could always hide, or we could fight it  
There was a always room  
Just some of it was true, we didn't mind it

And always open door  
Always on the move, it was exciting  
Now the walls are bare  
Now we really care, and not we're trying  
To remember life here

One-hand-lover, secret levels  
I'll find out what it meant for me to be  
Even if you can see the way, You won't ever lead  
me...

There was a time

When bond were strong, but so I was  
Before the crass, before the empty town  
And I was always on the rise  
But we couldn't have it any other way, so

We would strategize  
We would sometimes lie, and we would try it  
Gonna find a room  
Gonna see you , hope you don't mind it  
What happened here

One-hand-lover, secret levels  
I'll find out what it meant for me to be  
Even if you can see the way

You won't ever lead me back again
