

# Rogues

## Incubus

I'm keeping an eye on the future, an eye on the past  
And the present in my pocket, just in case I need a door  
    Into a brave new world where all solutions  
    End up with my head buried to my neck in sand  
        Enough, enough  
        Bowing down to disillusion  
    Hats off and applause to rogues and evolution  
    The ripple effect is too good not to mention  
If you're not affected, you're not paying attention  
    It's too good, too good, not to have an effect  
I'm keeping an eye on the pulse, an ear to the track  
And penance in a locket, dropping from the highest floor  
    When it hits ground I watch it smash to pieces  
    Songs of liberation echo from the dust, the dust

        Enough  
        Bowing down to disillusion  
    Hats off and applause to rogues and evolution  
    The ripple effect is too good not to mention  
If you're not affected, you're not paying attention  
    It's too good, too good, not to have an effect  
    Enough, enough, enough, enough, enough  
    Enough, enough, enough, enough, enough  
        Bowing down to disillusion  
    Hats off and applause to rogues and revolution  
    The ripple effect is too good not to mention  
If you're not affected, you're not paying attention  
    It's too good, too good, too good, yeah
