

Never Met A Girl Like You Before

Iggy Pop

Hey, I never met a girl like you before
Yeah, I never met a girl like you before
Girls like you are very hard to find
Hey, I never met a girl that I could miss
Yeah, I never met a girl that I could kiss
Girls like you are very hard to find
When I kiss you
I kiss your lovely lips
When I hold you
You got one hand I want to hold
Girl, I never met a girl like you before
Yeah, I never met a girl like you before
Girls like you are very hard to find
Hey, I never met a girl like you before
Yeah, I never met a girl like you before
Girls like you are very hard to find
To find, to find, to find, you're mine
