Let's keep it clear what I need from you is just a little space
Don't understand the goals I've set
Or the choices that I've made
Days fly by in the blink of an eye
And I find that years have past
Can't spend my life chasing expectations you've setLet's keep it clear what I need from you is just a little space
Don't understand the goals I've set
Or the choices that I've made
Years fly by in the blink of an eye
And I'll find that I've grown old
So much to do and so little time
And I can't live these days for you
That's not the way I want to liveSo I'm always going to push it away
You need to give me room to breathe
I want to live, live the life that I know is right for me
I want to live, and I know my mistakes
Are just lessons learned
I want to live, live the life that I know is right for me, drug free
I want to live, can't you see what's right?
If it's not my choice then it's not my lifeAnd I want to live, live my own life
