

# All I Was

[Mark Tremonti](#)

Would you finally know it when it came?  
Would it have a reason, have a name?  
Would you truly hate it when it's gone?  
And curse it all along All I was  
So unlike the way you know me  
All these dreams  
Are so unlike the way they were before Would it finally change you, will you break?  
Would it leave you angered, 'cause you pain?  
Could it be the threat's already gone?  
And was it all along? All I was  
So unlike the way you know me  
All these dreams  
Are so unlike the way they were before  
Before All I was  
So unlike the way you know me  
All these dreams  
Are so unlike the way they were before  
So unlike the way!
