Double Take

Ross Lynch

Flip a switch
Turn on the lightning
Get it right
Show ?em how it?s done
Free it up
No matter how you dress that song
Girl you know
You got ?em number one
Go with it, you got ?em where you want ?em
Drop the beat, they need to hear your sound
Play it up
It?s comin? down to you right now
They wanna know, know, know
Your name, name, name
They want the girl, girl, girl
With game, game, game
And when they look, look, look
Your way, way, way
You gotta make, (make), make, (make), make ?em do a double take
Make ?em do a double take
Yeah, yeah!
This could be an overnight sensation
You and me tearin? up the floor
Let it go, this party?s up to you right now
They wanna know, know, know
Your name, name, name
They want the girl, girl, girl

With game, game, game
And when they look, look, look
Your way, way, way
You gotta make, make, make ?em do a double take
Know, know, know
Your name, name, name
They want the girl, girl, girl
With game, game, game
And when they look, look, look
Your way, way, way
You gotta make, (make), make, (make), make ?em do a double take

Make ?em do a double take
Uh
Come on!
They wanna know, know, know
Your name, name, name
They want the girl, girl, girl
With game, game, game
And when they look, look, look
Your way, way, way
You gotta make, (make), make, (make), make ?em do a double take
Know, know, know
Your name, name, name
They want the girl, girl, girl
With game, game, game
And when they look, look, look
Your way, way, way
You gotta make, (make), make, (make), make ?em do a double take
