Trophy

Crosses

I've been waiting
For you to say the words
As we sail across the universeEntertaining
You bring me to a stare
As you wave your heart into the airI walk away
And play it safe
It's strange
How it worksTake your vices
And throw them in the drain
While you're laughin' in the pouring rainAre you sorry?
Well can you find the words?
You just say the lines that you've rehearsedI'll walk away
And play it safe like you
I just walk away and play it cool
It's strange
How it worksJust walk away and play it cool
It's strange
How it works
