

Waiting

Young Jeezy

Hook:

You know nobody's waiting, waiting on 103
(They waitin'... x7)
We need some motivation, so won't you come motivate me?
(They waitin'... x7)

Verse 1

I told ya'll, I told y'all, I told y'all again
Play the game, play the game, play the game, yeah, to win
I ain't lose, I don't lose, I ain't lose, never lost
Always on, keep it on, always on, never off
What the f*** is you hatin' for? Llike you done something for it, n*****
Would call you out, but that wouldn't do s*** for a n*****
I made it this far, a fool with my foolish pride
Look at me, what you see? A fool in his foolish ride
Y'all know damn well I wouldn't let any you n*****s down
Just to sit back and watch you led by these f***** clowns
Four albums in, n*****, still talkin' this real s***
Three classics in, n*****, and that's on some real s***
B*****, I'm legendary
B*****, I'm a living legend

Been through straight hell, so I can get street heaven
B***** I'm Jeezy, the one you been waiting for
And them forgi's is offset, don't they look like they skatin', ho?
(Hook)

Verse 2

B***** I was born high, and that's how I'm dyin' n*****
Eyes wide shut, with my finger on that gold trigger
You be hearing my word, now don't it sound like my soul bleeding?
Hearing my word, now don't it sound like my soul reading?
I do it for street n*****s, and every n***** that's like you
Let's see if you can afford one, even n*****s that buy two
Can't believe what I'm hearing, can't believe what you're saying
All that I did, god damn, that's how you try to play him?
Feeling my words when I be talking that street talk
You be feeling my words when I be talking that street smart
Yeah, school of hard knocks, yeah b***** I graduated
Straight to them hard blocks, and nothing was barricaded
(Hook)
