Everything I Love

Swv

I?ve known you long enough, to know you aint feeling love
Spending money is not spending time, a million dollars aint good enough
How can we communicate? If we don?t speak?
Baby don?t let nothing break us, let?s keep it concrete
Our hope is romantic; I can?t stand this (no no no)
Been through too much to be taking this for granted (no no no,no no no)
Swear to God I?m here for you
Baby don?t let nothing break us, let?s keep it concrete
Boy you?re my heart yeah I?m down for you rich or poor
We?ll still be right here
I put it on everything I love
You?re my everything; yeah it will hurt if you leave
I?ll still be right here! I put it on everything I love
We can move on (but losing us aint worth it)
And baby Ima hold on (give me something to work with)
Like a pass, if we drop the ball (I?m incomplete)
Baby don?t let nothing break us, let?s keep it concrete
Boy you?re my heart yeah I?m down for you rich or poor

We?ll still be right here
I put it on everything I love
You?re my everything; yeah it will hurt if you leave
I?ll still be right here! I put it on everything I love
I know nothing lasts forever
If we try we?ll make it to the day after
Ooooo
There?s nothing better than you and me
Don?t let nothing break us, let?s keep it concrete
Boy you?re my heart yeah I?m down for you rich or poor
We?ll still be right here
I put it on everything I love
You?re my everything; yeah it will hurt if you leave
I?ll still be right here! I put it on everything I love
Boy you?re my heart yeah I?m down for you rich or poor
We?ll still be right here
I put it on everything I love
You?re my everything; yeah it will hurt if you leave
I?ll still be right here! I put it on everything I love
