Twenty-three

Swingin' Utters

Was it something you said or was it something you did it doesn't matter much "cause I can't leave either way
I'm just a part now and I'm here to stay but I wouldn't want it any other way
Well I've been gone now far too long that's why I'm writing you this song it's been six months to date and it seems an eternity to wait but it's always hard on the road
I just wanna' hear you voice on the phone
I just wanna' hear you voice on the phoneI drink so I can retain some form of confidence but it never really kills the pain it never did I've gotta face the facts I always want you close to me Twenty-ThreeWell, I always used to feel so left out but now my life's all turned around its been nine months to date and it seems an eternity to wait but it's always hard on the road
I just wanna' hear you voice on the phone
I just wanna' hear you voice on the phoneFor the first time, I hope the last to the future, who cares about the past I fell in love now and it's nice to know that you're giving your love to me
Twenty-Three
I've been gone now far too long that's why I'm writing you this love song well, its been one year to date and it seems an eternity to wait but soon I'm gonna be back home I just want to have you close to me Twenty-Three
(Huber)
