

# Headstrong

## Trapt

Advisory - the following lyrics contain explicit language:

Circling your, circling your, circling your head  
Contemplating everything you ever said  
Now I see the truth I got a doubt  
A different motive in your eyes  
And now I'm out, see you later I see your fantasy  
You want to make it a reality paved in gold  
See inside, inside of our heads, yeah  
Well, now that's over I see your motives inside  
Decisions to hide Back off, I'll take you on  
Headstrong to take on anyone  
I know that you are wrong  
Headstrong, we're headstrong Back off, I'll take you on  
Headstrong to take on anyone  
I know that you are wrong  
And this is not where you belong I can't give everything away  
I won't give everything away Conclusions manifest, your first impression's  
Got to be your very best  
I see you're full of shit and that's alright  
That's how you play, I guess you get through  
Every night, well, now that's over I see your fantasy  
You want to make it a reality paved in gold  
See inside, inside of our heads, yeah  
Well, now that's over I see your motives inside  
Decisions to hide Back off, I'll take you on  
Headstrong to take on anyone  
I know that you are wrong  
Headstrong, we're headstrong Back off, I'll take you on  
Headstrong to take on anyone  
I know that you are wrong  
And this is not where you belong Where you belong?  
(I can't give everything away)  
This is not where you belong

(I won't give everything away) I know, I know all about, I know, I know all about  
I know, I know all about, I know, I know all about  
Your motives inside and your decision to hide Back off, I'll take you on  
Headstrong to take on anyone  
I know that you are wrong  
Headstrong, we're headstrong Back off, I'll take you on  
Headstrong to take on anyone  
I know that you are wrong  
And this is not where you belong Where you belong?  
This is not where you belong  
(I can't give everything away)  
This is not where you belong  
(I won't give everything away)  
This is not where you belong
