

# Invincible Force

## Destruction

I'm an invincible force of evil  
My eternal hatred is destructive  
There's no chance to survive  
I incarnate the end of mankind I'm in crest of human flesh  
And I agonize in a pool of blood  
Don't try to escape or resist  
'Cause Christ won't help you tonight Invincible force  
Invincible force You break down the morass  
Turn and see them blood stained claws  
I tear the shreds out of your face  
Now you will curse your day of birth You agonize in a pool of blood  
You scream out and beg for mercy  
Don't try to escape or resist  
'Cause Christ won't help you tonight Invincible force  
Invincible force
