

Stinkface

My Ruin

What was I thinking when I shut my mouth?
Open it wide let the shit come out
What was I thinking when I shut my mouth?
Open it wide let the shit come out Be my nurse as I scream for you
Kill my mood like you always do
Your only as strong as your weakest link
And your face looks like something stinks Life wrecking bitch better turn my cheek
Or shit might hit the fan this week Stinkface, stinkface don't think you can't be replaced
Told you twice better be nice, be nice
Who am I kidding 'cause I can't pretend
You don't really wanna be my friend push me to that place I fear Stinkface, stinkface don't think you can't be
replaced
Stinkface, stinkface told you twice and you better be, better be
Nice, nice What was I thinking when I shut my mouth?
Open it wide let the shit come out Stinkface, stinkface don't think you can't be replaced
Stinkface, stinkface told you twice and you better be, better be
Stinkface, stinkface don't think you can't be replaced
Stinkface, stinkface told you twice and you'd better be, better be nice
