

# Tron (Kieran Hebden Version)

## Foals

Away, away from this system there is another country, a place we could go  
Away, away from this system there is another country, a place we could go  
Away, away from this system there is a flower shop by which I mean to say  
Away, away from this system there is another country place we could go  
Away, away, away, away, away, away, away If something won't heal, our children can't help you out  
If something won't heal, our children can't help you out  
If something won't heal, a compass can't help you out  
If something won't heal, our children can't help you out Away, away from this system there is a flower shop by  
which I mean to say  
Away, away from this system there is another country place we could go  
Away, away, away, away, away, away, away A waste is a waste
