Perfect Lines

The Promise Ring

I traced all of the letters on all of your letters
I traced all of the letters on all of your letters, love lettersLet's talk about the sound of the phone outside of Texaco
From bell south down to a southern belleI traced all of the letters on all of your letters
I traced all of the letters on all of your letters, love lettersLet's talk about the sound of the phone outside of Texaco
From bell south down to a southern belle
Let's talk about the sound of the phone outside of Texaco
From bell south down to a southern belleLet's talk about the sound of the phone outside of Texaco
From bell south down to a southern belle, a southern belleYou never wrote in perfect lines
Which I never wrote you perfect lines, the perfect lines
So why aren't all roads perfect lines?
Why aren't all roads perfect lines?
