No Shows

GerardWay

[Verse 1]
Been weeks I been living
And your smiles are giving me all types of treble
Weak knees I been given
And those nights are making me star-struck and metal[Pre-Chorus]
Stay free, don't go
Cause we don't need no[Verse 2]
Try to be living as your vice
And can you be my type?
Cause we need to be given a good life
And can I be your type of metal?[Chorus]
Stay free, don't go
Cause we don't need no shows
We don't need no shows
We don't need no shows[Verse 3]
Pay for the devil, a plug to a pedal
I'm your type
Weak knees from the level, I'm sick from the treble
I'm your type of metal[Pre-Chorus]
Weak knees don't go
Cause we don't need no shows[Bridge]
She's sweet as battery, man I got nothing
You kiss an enemy's hands, I got nothing
We got an animal band and that's something
It's not love if it's just fuckingWe don't need no shows
