

Carpe Diem

You Me at Six

We sat outside till we were numb
Two coronal and lime and our thoughts
We talked about life, and how far we'd come
It took a while, but we waited for the sun
Carpe diem till the very end
I have no regrets
Carpe diem till the bitter end
You know when you get old
You'll look back and sweeten your soul
You took me apart to see inside
You took me away to feel alive, we're
California dreaming
Carpe diem till the very end
I have no regrets
Carpe diem till the bitter end
Carpe diem till the very end
I have no regrets
Carpe diem till the bitter end
Oh everybody knows you're a risk worth
taking
An option worth attention
I can't figure this one out, for now
Carpe diem till the very end
I have no regrets
Carpe diem till the very end
I have no regrets
Carpe diem till the bitter end
Carpe diem till the very end
I have no regret
Carpe diem till the bitter end
