

# Before We Say Goodbye

Shannon Noll

Sometimes your heart  
It feels so far away  
Sometimes our lives are night and day  
It always seems there's something out there better  
Who knows?

CHORUS:

Before we say goodbye  
Take a breath and think about it  
You're the one who makes me feel  
Ten stories high  
I'll survive and stay alive and  
Take a look down deep inside  
Before we say goodbye

Sometimes my world  
I feel it sweep away  
I hear your name and I feel safe  
Sometimes we dream of another life we're missing  
But who knows?

REPEAT CHORUS

Before we say goodbye  
Take a breath and think about it  
You're the one who makes me feel  
Ten stories high  
I'll survive and stay alive and  
But I need to know why  
Before we say goodbye
