

Yesterday's Gone

Bernard Fanning

It's your oldest trick and your cheapest one
Turn the world to blank and the game is done
I hope and I pray that the rainbow comes
You'll change your mind, don't shoot the gun You can sail on seven seas
Lend your heart out to who you please
Wherever you travel, whatever you see
Don't forget the love you got from me And goodnight moon, goodbye sun
What goes with you is all my love
I hope your best is yet to come, let's close the book
What's done is done 'cos yesterday's gone And there you go, now you're off your leash
Go, rid your heart of its great disease
Wherever you travel, whatever you see
Don't forget the love you got from me And goodnight moon, goodbye sun
What goes with you is all my love
I hope your best is yet to come, let's close the book
What's done is done 'cos yesterday's gone And yesterday's gone
And yesterday's gone
And yesterday's gone
And yesterday's gone
