Kiss

Keshia ChantÃ©

I was working at the mall after school on a Friday
You were with your mom, don't know what you were buying
We made eye-contact, through the tee-shirt rack
And I was hoping that you would say something to me (but you didn't)
But you were too afraid to talk while your momma was present
So when she left the store you came back in cause you left something
Slipped your number to me, on the back of the receipt
And you made me promise I would call you later (And I did)
I thought I knew it

[Chorus]
Thought I knew it from the first time I saw you
Thought I knew it from the first time we met
Thought I knew it from the first time we kicked it
But I knew it from the first time we kissed (when we kissed)
It felt just like we fell in love (when we kissed)
I know right then I fell in love (when we kissed)
Your lips showed me the purest love (when we kissed)

When I got home from work it was 9 in the evening
When we got off the phone it was 9 in the morning
Now its Saturday, so we planned a date
To meet up at 6 o'clock at the movies
We got there (got some snacks)
Some drinks (it was dark)
So we sat (in the back)
That's when you (stole my heart)
Cause you kissed me, didn't know you would kiss me
And I loved every bit fell in love with your kiss

[Chorus]

The touch of your hand, is where it began
The feel of your heart, still wasn't enough
But everything changed, on our first date
Boy that's when it hit me, the moment you kissed me
The touch of your hand, is where it began
The feel of your heart, still wasn't enough
But everything changed, on our first date

Boy that's when it hit me, the moment you kissed me

[Chorus]

We kissed.
We kissed, when we kissed, I thought I fell in love
