I Ejaculate Fire

Dethklok

I ejaculate fire!
A venomous fluid, cantankerous druid
It kills when I breed, with my death seed
CHECKMATE!
The world dies when I procreate
A bloody mess, bubbles with heat
Fear the splattering acidic de-mattering
IT BURNS! I'm fried to my loins.
Testicular propane, TANKS EXPLODING!

I perpetuate bile
A build up congestion
Epidydmal retention
My semen is flames
Flagellum is pain
Fuck fate!
Earth's crushed from atomic weight
With a hardened thrust
Deep in the core
A seismic tunneling
A rhythmic pummeling
Incinerate
The molten rock
A rancid genetic cannon fire!

Murdering, knew, nothing, OUTCAST!
Choke on gas, kill my sperm!

Fate wont lead fast enough
Come coagulating blackness
When can I re-decorate?
Save for me the glorious DETHTHREATS!
Gasoline pumps through my heart
Poison coursing somewhere
Down in that place
I feel the anger pulse again
Its been building!
Its been building!

EXPLODE!

Found my mission!
Death ambition!
Exploitation!
EXPLODE!

Short edition!
New tradition!
Extradition!
EXPLODE!

Fucking fear is contagious!
Go spread my flames so fellatious!
Fucking fear is contagious!
EXPLODE!
EXPLODE!
EXPLODE!
