Dance On Heavy Weather

Level 42

Take a chance - and dance
It's a chance - dance

All across the world there's people high on confrontation
And they try to solve their problems burning up the nation
Turn the whole world upside down and leave it in confusion
But still we get no answers using yesterday's solutions

We are the ones, keep sight of it
Don't have to make a fight of it

Dance on heavy weather
Learn to live with modern times
You can take the pressure
It's all a state of mind - so we can
Dance on heavy weather
Raise the heartbeat of the young
If we move together
Don't you know that we are the ones

Take a chance - and dance
It's a chance - dance

You can try to hide behind a mask of contemplation
Say you want to live your life in private isolation
From the east you can't ignore the storm of disillusion
And so it falls on all our shoulders to find a new solution

You've got to make a start of it
You've got to feel a part of it

Dance on heavy weather
Learn to live with modern times
You can take the pressure
It's all a state of mind - so we can
Dance on heavy weather
Raise the heartbeat of the young
If we move together
Let the soul - take control - we are the ones

Take a chance - and dance
It's a chance - dance

Hear the sound of the heartbeat of the young
Though the rhythm is so unfamiliar
Just be sure to be there now the time has come
Hear the music that brings us together

Dance on heavy weather
Hear the sound of the heartbeat of the young
We can take the pressure
We may have a solution, we are the ones
Dance on heavy weather
Hear the sound of the heartbeat of the young
If we move together
We may have a solution, we are the ones
