

Mighty Long Way

Tye Tribbett & G.A.

Everybody just look back
Everybody just look back
Everybody just look back
Everybody just look back Look where he brought me from
Look where he brought me from
Look where he brought me from
Look where he brought me from
Look where he brought me from
Look where he brought me from He brought me from a mighty long way
He brought me from a mighty long way
He brought me from a mighty long way
He brought me from a mighty long way Look where he brought me from
Look where he brought me from
Look where he brought me from
Look where he brought me from
Look where he brought me from
Look where he brought me from He brought me from a mighty long way
He brought me from a mighty long way
He brought me from a mighty long way
He brought me from a mighty long way Things I used to do I don't do no more
Places I used to go I don't go no more
Things I used to say I don't say no more
Ways I used to think I don't think no more Look where he brought me from
Look where he brought me from
Look where he brought me from
Look where he brought me from He brought me from a mighty long way
He brought me from a mighty long way
He brought me from a mighty long way
He brought me from a mighty long way
He brought me from a mighty long way Everybody say yeah yeah yeah
Yeah yeah yeah Look where he brought me from
Lokk where he brought me from
