

# Love Connection

## Jukka Eskola

Love love  
Want to give you love love  
Give you love love love love love loveI just want, to give you good love, love, love  
Let's make a love connection  
If you think you're ready  
I just want to bring you good love, love, love  
Let's make a love connectionGirl you ain't been loved  
Ain't been loved quite right in a long, long time  
I can hear your body calling mine  
Your eyes can't lie, I just wanna  
Make your body shiver in butterflies  
From the kind of sex you can't denyI promise every risk that you can make  
Is my command  
That you won't find another that can lay you baby  
Quite like I can, I can  
Girl I know how to tune in  
See I understand  
See that's what you need  
Girl trust in me, yeahI just want, to give you good love, love, love  
Let's make a love connection  
If you think you're ready  
I just want to bring you good love, love, love  
Let's make a love connectionYeah, yeah, yeahLet me hold you tight  
If your body needs I can go all night  
Anything you require  
I'll satisfy  
I'll be your friend, be your freak in between  
It's all right, just tell me what you needI promise that anything that you can think  
Is my command  
That you won't find another that can lay your body  
Quite like I can, I can, I can  
Girl I know how to tune in  
See I understand, see that's what you need  
Just trust in me, yeahI just want, to give you good love, love, love  
Let's make a love connection  
If you think you're ready  
I just want to bring you good love, love, love  
Let's make a love connectionYeah yeah yeahI-I, I won't let you down baby  
When we're in between the sheets

Now, now, now, honey  
Oh now we're making love baby

And I won't stop, no I won't stopNo, no, no, no, no, noI just want, to give you good love, love, love, love, love

Let's make a love connection

If you think you're ready

I just want to give you good love

Let's make a love connectionWhoo hoo (whoo hoo hoo hoo)

Whoo hoo hoo hoo (hoo hoo)

Let's make love, let's make love, let's make loveI just want, to bring you good love, love, love

Let's make a love connection
