Still Learning To Fly

Novastar

I'm full of desire
I burn I burn I'm on fire
how I love you beyond the unknown
all of this I've got to let you know
all of this I've got to let you knowBe all you can be
just take it and speed it to me
an I love it beyond the unknown
all of this I've got to let you know
all of this I've got to let you knowit hurts me real deep to see you in need
I'm on a roll nothing's stopping me
I missed out on your sky
I'm still learning to fly
the summit the summitit seems you still don't know what it means
I don't blame you although it might show
anyhow I've got to let you knowit hurts me real deep to see you in need
I'm on a roll nothing's stopping me
I missed out on your sky
I'm still learning to fly
