

# Echo

[Sam Bailey](#)

Now I'm beside you waiting for the sunrise  
Did not say I love you, but I see it in your eyes  
Don't need to be afraid, no  
You got my devotion  
I thought I've heard you say something in your sleep  
Under your breath,  
Come and say it out louder  
Say it now louder  
Tell the words  
Echo, echo in my head  
That echo, so I can hear them again  
Say it louder  
Say it to me louder  
Tell the words  
Echo, echo in my heart  
Echo, even when we're apart  
Lying beside you, wonder what you're doing  
I just wanna tell  
What I'm really feeling  
Don't you be afraid, no  
Show me some emotion  
I thought I heard you say something in your sleep  
Under your breath,  
Come and say it out louder  
Say it now louder  
Tell the words  
Echo, echo in my head  
That echo, so I can hear them again  
Say it louder  
Say it to me louder  
Tell the words  
Echo, echo in my heart  
Echo, even when we're apart  
It's burning me up inside,  
This love is hard to hide  
I gotta let it out tonight  
Yeah  
I know what I've gotta do  
If wanna feel close to you

To say that you love me, tooLouder, say it now louder  
Tell the words  
Echo, echo in my head  
That echo, so I can hear them again  
Say it louder  
Just say it to me louder  
Tell the words  
Echo, echo in my heart  
Echo, even when we're apart
