

Longshot (7 Nights)

Miike Snow

I, I know you been needing time to set aside
You found a party each and every night
See it in your eyes
You're running out of time
I see you fake but you can't take the ticking Oh girl, your chasing thrills are Known through most the world
Why do you stay up all night
'Cause you heard its the way to be
I can stay on leave
I'm ready now
As long as you're willing Seven nights up all night
Seven night you feel alright
'Cause seven nights is a good time
Until the stars are gone, oh
I don't wanna chase the fame
And have everybody know my name I'm an old man now look at me
Just go go on forget me
It's always been a long shot
I said it's always been a long shot
