

Love Me Tender

[Xikidi](#)

LOVE ME TENDER

love me tender

hold me sweet take me to your heart

love me tender

let me sing among those stars fill my heart with gladness

take away my troubles and sadness

fill my heart with gladness

just as long as we stand by baby deep down mine soul

i've got this feeling

i guess we'll be till the end chorus

i wanna give all that i have x4 let your love shine

show the world what you got inside

let your star shine

let me sing among those stars can't you feel my love and understand

can't you feel it, can't you feel it baby

watch my eyes and tell me what's the problem

just as long as we stand by baby chorus
