

Things That You Love

Pepper

Tell me what your friends call you
And let's save some time
You got three different colors in your hair
Is the real one hard to find? Hey baby
Are you the type that thinks
You're right all along?
Well, if you want to me my girl
Then you got to be wrong most of the time
Things that you love they can disappear, ooh
Tell me what your favorite movie is of all time?
Are you a bookworm or a worm in an apple stuffed on pie? Hey
Are you the type of person that would really understand? Hey
Are you always busy makin' other plans? I tell you
Things that you love they can disappear, ooh
Hey baby
Things that you love they can disappear, ooh
Come on sexy play me, I'll be more than ready
Here the taste of produce tastes like strawberry
Little queen of mischief spendin' all your loot
But I picturin' you naked standin' in your boots

Now I'm just gettin' to know you
What you got for me
Tell me about your parents
'Cause the fruit don't fall far from the tree, yeah
Are you bulletproof with your nickels and dimes? Hey, hey
Do you hold the remote and change the channel all the time?
I tell you
Things that you love they can disappear
I got ramblin' and ramblin' is on my mind
Hate to leave you baby but you're so unkind
Hot tamales, better let yourself cool down
Ramblin' on my mind so I can leave this town
Things that you love they can disappear, ooh
Things that you love baby, things that you love baby
Things that you love baby, things that you love baby
Things that you love baby, things that you love baby
Things that you love baby, things that you love baby
Things that you love they can disappear, ooh
