

Keep It Up

Youth of Today

You know it causes more problems you're not happy at all
every time you indulge you realize you fall
all that you've learned don't take the wrong turn
if you keep it up you're gonna get burned
KEEP IT UP Go ahead KEEP IT UP KEEP IT UP II hope you don't KEEP IT UP
A position of respect live up to it
you never liked the trend, that's why you quit
you know what is wrong you know that you're strong
you knew the whole time that you didn't belong
KEEP IT UP
