

Leave Me Now (Hard Enough)

Jann Arden

Leave me now, don't hang around
Just close the door and leave the key
Under the plant outside
The one you bought me years ago
Look how it's grown Go away, you cannot stay here
Take your heart off of your sleeve
And let me catch my breath
I hope you haven't left a thing It's hard enough
To be here without your love
It's hard enough Move along, you don't belong here
Wipe yourself off of my floor
And let me get some sleep
I cannot keep you in my heart It's hard enough
To be here without your
To be here without your
To be here without your love It's hard enough
It's hard enough Leave me now, don't hang around
Leave me now, don't hang around
